Long live the BID

As a long time are resident, I want to thank Town & Village Newspaper for letting us know about the newly-formed Flatiron Business Improvement District (BID) that has recently begun to service our neighborhood.

For years the area around 23rd Street was filthy, while most of the major streets in the city that have BID's had been cleaned up

long ago.

I recently noticed that the Flatiron's uniformed street cleaners are out in full force and have already made a huge difference in the quality-of-life of those of us who live there. Congratulations to the BID team of Jennifer Brown and Tim Cohen for the great job they are doing.
